

RENAN AUGUSTO DOS SANTOS

Senior Frontend Engineer · React | TypeScript | Next.js · AI-Assisted Development

São Paulo, Brazil | renan.gabba@gmail.com | linkedin.com/in/renan-augusto-santos | github.com/renanfrontend

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 6+ years of experience building modern, scalable, high-performance web applications in the React, TypeScript and Next.js ecosystem. Specialized in integrating Artificial Intelligence into the development lifecycle — Claude Code, Google Gemini, GitHub Copilot, ChatGPT and Prompt Engineering — to speed up delivery and raise product quality. Solid background in software architecture, UI/UX, Cloud (Azure, Docker) and CI/CD, focused on performance, accessibility and business impact.

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Vite, Redux, React Query

UI/UX & Styling: Tailwind CSS, Shadcn/UI, Styled Components, Material UI, HTML5, CSS3, Accessibility (a11y), Responsive Design

AI & Productivity: Claude / Claude Code, Google Gemini, GitHub Copilot, ChatGPT, Prompt Engineering, LLMs, Generative AI, AI-Assisted Development

DevOps & Cloud: Docker, Azure DevOps, Azure Container Apps, ACR, Nginx, CI/CD, Git, GitHub Actions

Integrations & Methods: REST APIs, Java Spring Boot (integration), Angular, Google Charts, Figma, Scrum / Kanban

PROFESSIONAL EXPERIENCE

Senior Frontend Engineer

Sep 2025 – Sep 2026

MWM Motores e Geradores · São Paulo · Hybrid

- Built scalable SPA/PWA interfaces with React, TypeScript and Vite for corporate and logistics systems (MWM Portal, Bio Plantas).
- Created logistics and quality dashboards with Google Charts, improving gate control, cooperative member management and operational data analysis.
- Modernized UI/UX by migrating legacy interfaces to Tailwind CSS and Shadcn/UI, focusing on responsiveness and accessibility.
- Orchestrated infrastructure on Microsoft Azure (Docker, Azure Container Apps, ACR) and automated CI/CD with Azure DevOps.
- Integrated REST APIs (Java Spring Boot) and configured Nginx servers.

Senior Frontend Engineer

Oct 2024 – Jan 2025

Portal Telemedicina · Barueri, SP · Remote

- Designed and implemented responsive, accessible interfaces with Angular, TypeScript, HTML and CSS.
- Applied UI/UX principles to build intuitive experiences and ran tests to ensure application robustness.
- Integrated APIs and services, translating layouts into clean, functional code (GitHub Actions).

Mid-level Frontend Engineer

Oct 2023 – Jun 2024

Olos Tecnologia · São Paulo, SP

- Developed interfaces with React, TypeScript, Next.js, Styled Components and Material UI.
- Implemented responsive layouts and UI/UX best practices, ensuring a high-quality experience.
- Managed CI/CD pipelines (GitHub Actions) for continuous, secure delivery.

Mid-level Frontend Engineer

Mar 2022 – Sep 2023

SAFIRA Soluções & Tecnologia · São Paulo · Hybrid

- Sole frontend developer: defined the stack and structured the end-to-end architecture.
- Built reusable React/TypeScript components, JWT authentication and RESTful API integrations.
- Made technical decisions weighing performance, scalability, maintainability and security; mentored junior developers.
- Hands-on experience with AWS/Azure cloud and CI/CD pipelines.

Frontend Developer Analyst

Feb 2020 – Mar 2022

Clude (360º Health Card) · São Paulo, SP

- Developed responsive web applications with React.js, JavaScript, HTML, CSS + Sass, Bootstrap and Git.
- Delivered efficient solutions focused on usability and user experience.

EDUCATION

Postgraduate Specialization — Artificial Intelligence and Data Science

Universidade São Judas Tadeu · 2026 – Present

Systems Analysis and Development

Universidade São Judas Tadeu

CERTIFICATIONS & LANGUAGES

- Accessibility with React — Rocketseat (2025)
- Human-Computer Interaction and UX — Universidade São Judas Tadeu (2026)
- 70+ certifications in Frontend, Cloud and Artificial Intelligence

Languages: Portuguese (native) · English (basic, in progress)
